

View Check History

View a Check Report

You need *Apparatus Manager*, *Apparatus Checks Coordinator*, or *Apparatus Checks Participant* permissions to view apparatus check history and reports.

You can pick the questions that appear on the checklist when conducting an apparatus check. You can also add custom items to the checklist.

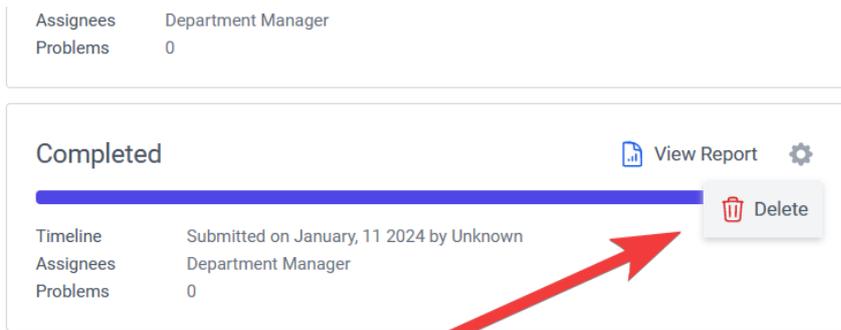

1. On a browser, go to <https://apparatus-checks.platform.firestationsoftware.com/select-apparatus>. You may need to sign in.
2. Select the apparatus you want to view.
3. In the left menu select *Check History*.
4. Click the "View Report" button on the right side of a completed check row.

The screenshot displays the 'Apparatus Checks' web application interface. The top navigation bar shows 'Apparatus Checks' with a dropdown arrow and a user profile for 'Department Man... My Fire Department'. The left sidebar contains navigation options: Overview, Inventory, Checklist, Check History (highlighted with a red arrow), and Switch. The main content area is titled 'View Check History' and features a section for 'Fire Station+ Checks' with a descriptive note. Below this, there are two check status cards. The first card, 'In Progress (14%)', shows a progress bar and details: Timeline (Started on January, 11 2024 by Department Manager), Assignees (Department Manager), and Problems (0). The second card, 'Completed', shows a full progress bar and details: Timeline (Submitted on January, 11 2024 by Unknown), Assignees (Department Manager), and Problems (0). Both cards have 'Resume Check' and 'View Report' buttons.

Delete a Check

You need *Apparatus Manager* permissions to delete apparatus checks.

1. Click the gear button on the right side of a check row.
2. Select "Delete".
3. Click "Confirm" at the bottom of the modal dialog.

Assignees	Department Manager
Problems	0
