Apparatus Checks

Bug Fixes

- Fixed the status of apparatus listed on the switch apparatus page when there is a check in progress **and** no checks have been submitted yet. Previously, under these conditions, the switch apparatus page listed the apparatus as "Never Checked". With this release, such an apparatus now says "Check in Progress".
- On the switch apparatus screen, after clicking the "Show Hidden Apparatus" to view archived apparatus, a new button has been added with the label "Hide Apparatus". Clicking this button hides the archived apparatus, thus bringing you back to the original list of apparatus.
