November 2024

Fire Station Desktop

Rolled out to Active911 Beta customers on November 1st, 2024.

General

- Added improved net code support for handling database connection errors.

Active911 Beta

- Fixed a bug when no firefighters match the alert responses.
- Fixed a bug where the alert "details" were not appearing.
- Converted the alert times and response times to the timezone of the computer running Fire Station.
